- Quick Learner
- Highly Organised
- Creative Problem solver
- Team Player
- Responsible
- Self Motivated

### Technical Skills

- Computer Science
- Python
- HTML
- CSS

# Gabrielle Patsanza

## Computer Science Student

I am a highly motivated and detail-oriented professional seeking a career in the innovative tech industry, leveraging my expertise in software development and user interface design. With a strong passion for continuous learning, I proactively acquire new skills and apply them effectively to my work. My experience in multidisciplinary roles has equipped me with valuable soft skills, including problem-solving, teamwork, and customer service. Additionally, my hands-on experience with practical computer science projects has allowed me to develop proficiency in multiple programming languages. Adaptable and eager to grow, I am committed to contributing value to an organization by embracing new challenges and technologies.

## Projects and Experience

○ 2023- 2025

**Chelmsford College**

**BTEC level 3 Extended diploma in Software development**

I study a full time 2 year course in software development. During these years I get to develop skills in things such as website development , games development , 3D and 2D graphics and programming.

○ 2023 - Ongoing

**Part-time Work Experience**

**Primark : October 2023 - June 2025**

- Customer service
- Admin experience
- Problem solving under pressure

**New look : July - October 2023**

- Admin experience

○ 2023 - Ongoing

**Work Experience and Projects**

**FX Digital Summer internship : June 2025 - September 2025**

A 12 week long internship where I can further learn and develop my skills while working closely with their quality engineering team as well as developing my understanding in office work

**FX Digital Week long Work experience : July 2024 - July 2024 & Feb 2025 - Feb 2025**

A week long experience in the IT industry. At FX I got to work in all the departments. This allowed me to understand the different IT roles in a company.

**Stemettes Mentoring Program : October 2023 - March 2024**

A four month long 1:1 mentorship programme.

This programme has workshops, networking sessions and 1:1 mentoring to help get ahead in the STEM world.

**Stemettes Python Course : July - August 2023**

A month long learning course that helped me develop skills in Python - Certificate received.
